

Do you want to be in the forefront of SAGD technology?

Welcome to Japan Canada Oil Sands Limited

Our vision is to provide a cost effective, long term and stable hydrocarbon supply to the world-wide markets as a leading in-situ oil sands producer.

Our development is in its 7th year of operation and our state of the art water treatment facility has achieved some of the highest water recycle rates in the industry.

As we continue to grow and introduce new technologies, we have an immediate need for additional **Plant Operators** at our Hangingstone SAGD operation.

Plant Operators

- Operation of water treating, steam generation, oil treating and waste management system, using a Foxboro Micro I/A DCS. These are 12-hour shift positions.
- Valid 3rd or 2nd Class Power Engineering Certificate is required; Oil and gas experience is an asset.
- Ability to work effectively in a team environment, utilizing strong communication and organizational skills.
- These are safety positions and will be subject to relevant requirements of JACOS' Substance Abuse Policy which includes Pre-Access testing.
- These positions are located 50km SW of Fort McMurray, Alberta at our Hangingstone site.
- We offer a competitive salary, comprehensive benefits and a challenging work environment.
